Persona 3: The Student Who Struggles With Tests

Alex Martinez
Age: 17

Occupation: High school student
Goals: Remember class material, feel prepared for exams, and improve test scores.

Challenges:
- Forgets information after reading notes.
- Does not always know what to study first.
- Needs more practice before taking tests.

How StudyBuddy AI would help: Alex could use smart flashcards and practice quizzes to review important information. The app could also suggest what to study based on the topics Alex finds difficult.

Quote: “I understand things when I'm in class, but when it's time for a test, I forget what I learned.”
